EXECUTIVE SUMMARY

Informatics Engineering graduate with internship experience as a Power Apps Developer at Bank Indonesia. Experienced in developing business process automation solutions using Microsoft Power Platform, SharePoint, SQL, and Python. Passionate about data analysis, system development, and digital transformation initiatives.

EDUCATION

2021 - 2025

Universitas Islam Negeri Syarif Hidayatullah Jakarta | Informatics Engineering

- GPA: 3.83/4.00

WORKING EXPERIENCE

Kantor Perwakilan Bank Indonesia Provinsi DKI Jakarta

July 2024 – October 2024

Power Apps Developer (Internship)

- Improving the internal application used by employees for document number generation.
- Designing and developing a system to automatically generate document numbers based on user input.
- Migrating the database from Excel to SharePoint as the new database to enhance efficiency and security.
- Developing a Power Apps-based application to facilitate document management and automation, utilizing SharePoint as the backend.
- Conducting thorough testing of the Power Apps and SharePoint applications developed, and fixing bugs found during the testing phase.

Pelindo Terminal Petikemas (IPC TPK)

Agustus 2025 – Now

Technical Writer

- Developed and maintained structured technical documentation, including System Documentation, User Guides, API Documentation, and Knowledge Base
- Translated business requirements into clear and actionable technical documentation for both technical and non-technical stakeholders
- Collaborated with product teams, developers, and stakeholders to gather requirements and ensure alignment between business needs and system solutions
- Analyzed system workflows and business processes, documenting them through diagrams and technical specifications

PROJECTS

- Jakarta Public Transport Accessibility Analysis

link: <https://github.com/riotegars/jakarta-public-transport-accessibility-analysis>

Overview

Conducted an end-to-end data analytics project to evaluate the alignment between public transport infrastructure availability and population mobility needs across 44 districts in Jakarta. Integrated demographic and transportation datasets, developed accessibility metrics, performed geospatial analysis, and built an interactive Power BI dashboard to identify underserved areas.

Tools Used

- Python
- Pandas
- GeoPandas
- Git
- GitHub
- PowerBI

Key Insights

- Identified Johar Baru, Koja, and Cilincing as districts with the highest public transport accessibility gaps.
- Found that Setiabudi and Tanah Abang have the strongest transport infrastructure coverage.
- Revealed disparities in public transport distribution, particularly across parts of North and East Jakarta.
- Developed Demand Score, Supply Score, and Gap Score metrics to quantify accessibility inequalities across districts.

- **Chelsea Performance Analysis**

link: <https://github.com/riotegars/chelsea-performance-analysis>

Overview

This project analyzes Chelsea match performance using PostgreSQL to identify win rate trends, home advantage impact, and possession influence on match results.

Tools Used

- PostgreSQL
- SQL
- PowerBI

Key Insights

- Chelsea has a competitive overall win rate.
- Home matches show higher win rates compared to away matches.
- Higher possession correlates with improved match outcomes.

- **Sample Superstore Analysis**

link: <https://github.com/riotegars/sample-superstore-analysis>

Overview

This project analyzes the Sample Superstore dataset using SQL. The goal is to explore sales performance, profit trends, and product category insights to better understand business performance.

Tools Used

- PostgreSQL
- SQL
- PowerBI

Key Insights

- Technology category generates the highest sales.
- Some sub-categories have high discounts but low profit.
- Sales trends vary across different regions.

ORGANIZATION EXPERIENCE

Federasi Olahraga Mahasiswa UIN Jakarta (FORSA)

Januari 2024 – Desember 2024

Head of Basketball Division

- Planning, organizing, and overseeing basketball team training and participation in matches and competitions. Ensuring that training and match schedules align with the established plans.
- Taking responsibility for ensuring effective communication among basketball team members, coaches, management, and division members.

Senat Mahasiswa UIN Jakarta (SEMA-U)

May 2024 – Juli 2025

Staff Commission III (Aspiration & Advocation)

- Collected, documented, and analyzed student aspirations, complaints, and academic/non-academic issues to support decision-making and policy improvements.
 - Facilitated communication between students and the university's academic and administrative departments to address student concerns.
 - Developed advocacy reports and recommendation documents based on collected feedback and case findings.
-

SKILLS

- SQL
- Machine Learning
- Python
- Tableau
- MS. Office
- Looker Studio
- Power BI
- Power Apps
- Power Automate
- Ms. Sharepoint
